A ROMANCE.

An Operator's Experience, in Witch he Was Elevated by a Woman.

[OPERATOR.] "Miss," said he ,going over to where the young girl sat, sending a message with swift, firm fingers, "lum an operator and out of a job. Ask your chief if he will let me 'suh' for you while you rest a hit."

She finished sending the message, aml after marking it with the receiving operator's signature, put it in the drawer. Then she looked up into the dark, brilliant face-1 lace full of irresistible beauty and power -and at the commanding figure, standing six feet two inches above her, and straight as an arrow. Despite years of wandering and the visible traces of dissipation, there still lingered about him a military air and evidence of better days.

He began almost to wish he had not told her he was an operator when she asked him where he was going, where he came from, where he worked last and other questions, all the while looking him directly in the face with her grave, sweet eyes.

"Smely our chief will let you work if you are a competent opera-

The clean white curtains were drawn back by crimson ubbons. and on the window sill were sprouting geraniums and blooming roses that sent delightful odor all over the office. On the wall were hing pretty little landscapes and on the desk was the photograph of a young man. It was three weeks before Miss Burleigh returned on duty; then Merlin was given a regular situation at a station east of her.

Every time he found that a restless desire to roam was creeping over him he called her up over the wire and held a chat. She was always the same, kind, good and modest; and he looked forward with repressed longing to the time when he would see her again.

When a year had passed the roamwas no longer classed with tramps; he was a man-not only a man, but a gentleman in every sense of the word. He often asked himself what had

LET the good work done on the streets be followed by a general cleaning up. Without it typhoid fever and cholera are given a special iuvitation to visit the town.

True to its record of general cussedness the Legislature has passed a bill abolishing the Iustitute for the education of feeble minded children. Shame on the per them dead heats.

KENTUCKY is enjoying a rest this week-the editors are away and if she could only get rid of the Legislature her peace would be perfect, but ly at 8 o'clock the exercises begun, it is all right; we could not stand too and continued until a late hour. It many good things at once.

The graduate should not fail to keep in mind the fact that his effort at Commencement is only the first and not the last great effort iu bis struggle with the world. To-night's program will be the conferring of degrees, and the Valedictory by U. C. Barhett, after which will be the Alumni Banquet at the Hartford House.

Commencement this year has been grand, and every student will depart for home, feeling that he has been greatly benefitted by attending Hartford College.

Extracts from Town Tattler Many persons in and out of Hartford wonder why it is the town cannot have a creditable ball team. It is because the game receives no encouragement at the hands of our people. Public sentiment makes everything. and baseball is no exception to the rule. It our people took any interest in the matter, if they were willing to contribute liberally toward the financial support of the club, if they had any kind words for those who try to overcome all obstacles and build up a team, if they encouraged, rather than disconraged the progress, there would be altogether a different state of case. The boys would take more pride in practice-they would strive to be first, they would show their town pride and the result would be that Hartford could boast of a good amateur club. It is quite true that the team is weak in a vital point or Mr. Cleveland privately claim to be so but with proper encouragement this could be greatly remedied. There and capture the State Committee, are at least two of the boys (I mean those twenty-one or under) who with proper management and careful practice would in a few weeks developinto more than ordinary amateur pitchers As for catchers, there are at least three excellent ones if they were encouraged to go ahead. What the Hartford ball team needs is encouragement and not abuse. The people of any other town but Hartford take pride in their ball team however many may be its faults. By all means give the boys a chance and let them know you are with them.

WASHINGTON.

The Administration has at last done one thing for which it deserves credit. In the entertainment of the Spanish Infanta and her suite, who were in Washington a week as the official guests of the nation, it discharged an unusual task in the most satisfactory manner, to all concerned, in spite of the attempts of some tuft hunting Americans to persuade it into making a mess of things by following European customs. Not a little of the credit, however, is due the Infanta, who prove I herselt to be a woman fully emlowed with common sense, really to adapt herself to American customs instead of expecting Amerher visit to Washington and with the people she met while she was

To those who have properly understood its advantages, life insurance has long been considered a valuable privilege of providing for the dependent ones whom one may leave behind. In recent years it has taken even stronger tone and is now looked upon by right thinking men as not only a privilege but a duty.

Why should men live for years with debts hanging over them sufficient to annoy and trouble their families if not to bring them to want after those upon whom they have depended have gone? Has a man the moral right to thus jeopardize the living of his wife and family when protection in the form of life insurance is placed within such easy reach? Upon such fine business principles is the plan of insurance now arranged that it is profitable as an investment even if a man outlives the period of his insurance, and infinitely comforting it must be to a man brought down to death to know that those he left behind bim will be well cared for.

It is every man's plain duty to insure. In casting about for a reliable company, the people of this country have pretty generally agreed upon the United States Life Insurance Company, represented here by Col. S. R. Deut. He has paid thousands of dollars in this and adjoining counties, and has been uniformly prompt and obliging in his settlements.

The following letter from one who has cause to be grateful is only a sample of hundreds of such which the faithful agent receives. Read it and think about your case:

ROCHESTER, KY., May 21, 1893. MR. S. R. DENT, Agent United States Lile Insurance Co., Leitchfield, Ky.: DEAR SIR-I am in receipt of the draft of \$1,000.00 in payment of the policy on the life of my late husband, Thomas J. Gaines. I wish to thank the United States Lile Insurance Company for the very prompt payment of the claim, as it was paid within five days after proof of death was furnished. When Mr. Gaines insured, a year and a-half ago, I had little idea that I to-day would be the recipient of his insurance, vet such a lesson teaches the uncertainty of life and the certainty of death. If any husband or lather now uninsured could see the value of life insurance as I now see it, twenty four hours would not elapse before an application for insurance would be made through one of your

agents. I will recommend to my neighbors that they carry insurance in the United States Life, and I shall always take pleasure in stating how promptly you settle claims.

Very truly yours, MARY S. GAINES.

In Exodus, the Hebrews marched to the promised land. Leviticus contains the law, holy and

God's mighty deeds: Brave Joshua, into Cananou's land, the host of Israel leads: In Judges, their rebellion oft provok-

In First and Second Samuel, of Jesse's son we read: Ten tribes, in First and Second Kings revolted from his seed;

The First and Second Chronicles see Judah captive lead, But Ezra leads a remnant back by

princely Cyrus' aid; The city waits of Zion Nehemiah builds again,

While Esther saves her people from the plots of wicked men: In Job, we read how faith can live be-

The mystic song of Soloman exuits sweet Sharon's rose. Whilst Christ, the Savior and the King, the "rapt" Isaiah shows;

The warning Jeremiah, the apostate ' Israel scorus. His plaintive lamentations their aw-

The Story of A Boy. [CLIPPER]

We will begin with our boy at the moment when he leaves home, and appears timidly upon the steps of the academy. Here he is met by the presiding officer and told that the thing for him to do is to study Latin and threek. The boy looks up into the persuading face before him, and in his self-forgetfulness says diffidently, "Yes, mum." He is now placed on a bench and taught the decayed languages for two or three years, and when his legs have grown long enough for his teet to touch the floor, is said to be prepared for college. He can conjugate sum-i. e., n trile; can tell the difference between a rum and a rat: knows all about Julius Caeser and a baby his whole iifo. the unple contness between him and Ariovistu-; thinks his heart is on his left side, and that a cow has but two toes on each toot. A Three-year-old Warmly Greeted. In "The Staff of Diamonds," one of the old, lurid melodranus of the London stage, Roslna Vokes made her first appearance and delivered her first lines. Miss Vokes was 3 years of age. The seeno was laid in a mining country, and a cave in had occurred in the mine. Among the imprisoned unfortunates was the child's father. A rescuing party was grouped about the mouth of the shaft, and some one is asked to volunteer to take provisions down to the imprisoned miners. Will you go down to help apa!" said the little one's mother. "Yes," said the child bravely. Cheers from the audience. "And you are notufraid?" asked the rescuing party. 'No," said the child in a ringing voice and striking an attitude. More applause from the audience and wild excitement in the plt.

Here occurred the transformation, and the next scene showed the interior of the mine. The little herolne was being lowered in a bucket, and as she neared the bottom of the shaft sheeried: "Papa, papa! I have too much for the already excited audienee. They arose en masse and vociferously demanded that little Rosina be brought before the eurtuin. Miss Vokes made a thorough and undeniable hit on her first ap pearance and at the tender age of 3

Papa Should Have Kept Ills Promise. A certain father, who lives out on Massachusetts nvenue, not long ago promised his little boy "n nice, large, decorated rubber ball." The father returned to his labor after supper, and when bedtime came the overfaithful and Christian mother might have been seen seated with the little enrly headed youngster at her knee as he lisped his evening prayer. The little lips uttered the "Now I lay me," and he had called upon the heavenly parent to "bress mamma," when he stopped suddenly. "Well, Frankie, why do you not finish?" usked the wondering mother. The child's face, covered with a puzzled expression, was raised, and he asked, 'Mannia, does 'on fink papa will bring me my ball?" "Why, of course he will, my boy, ho will surely keep his word." The little form again was bowed low, the head pressed down in the mother's lap, and the littlofellow coucluded: "All yite, den. Dod, 'ou tan bress my papa too."— Indlanapolis Sentinel.
